Description and Structure of our Company

Accredited Epoxy Applicators P/L (AEAQLD) is a concrete treatment company specializing in all facets of concrete floor treatment from repairs, resurfacing, sealing, waterproofing, and epoxy surfacing. We have been working in the concrete treatment and flooring industry since 1999.

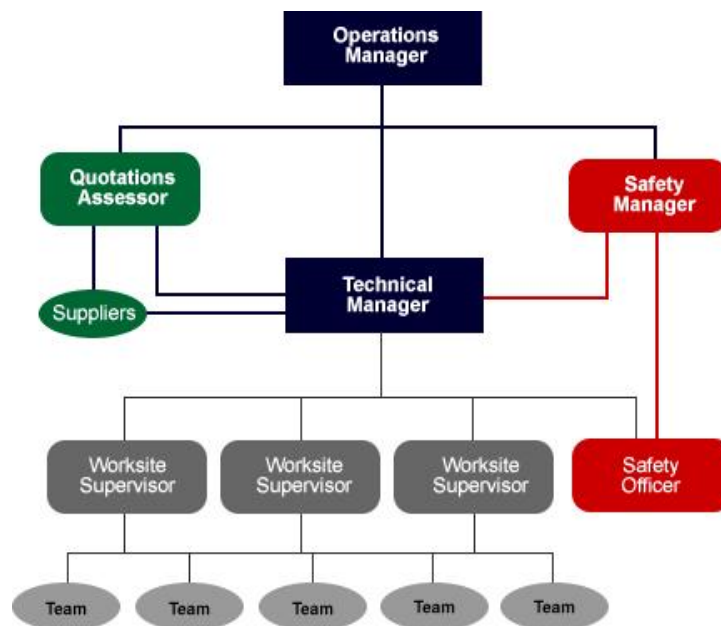

Our aim is to build an efficient and sustainable concrete surface treatment company based in Queensland.

We offer competent and competency based skills, designed to provide all customers in the industrial, commercial and domestic markets with trust in our services.

Our structure provides us with the ability to service small, large and extra large projects.

Our Capabilities

Our capabilities include:

- Installation of anti-slip surfaces.
- Installation of heavy duty seamless epoxy resin floor screeds.
- Installation of a range of high performance floor coatings.
- Floor repairs (including repairs to damaged concrete substrates, steps and other areas).
- Installation of a range of non-taint flooring systems for use in proximity with foodstuffs.
- Installation of anti-static flooring systems.
- Qualified floor preparation, including diamond grinding, scabbling/planning or captive shot-blasting to minimize dust creation.
- Installation of dust proofing floor sealers.
- Removal of existing coatings, where required.
- Coved skirting's and coving repairs. Expansion joints installed and repaired.

Warehouse floor

Vision

Our vision is to provide a very high quality service, backed by qualified and experience people, and warranted through documented processes.

Company Values

Our underlying corporate values incorporate the following:

Foundational values

- integrity and honesty
- innovation
- customer orientation
- accuracy
- commitment
- enthusiasm
- responsiveness

Resultant benefit values

- customer service
- excellence
- empowerment
- achievement
- competitive edge
- market leader

Service feature values

- quality service
- creativity
- reliability

Legacy values

- credibility
- consistency
- accessibility

Our Website

AEA (QLD) offers a comprehensive on-line information website, published on the Internet at:

www.aeaql.com.au.

This web site features information on all types of concrete treatments and service related outcomes. We publish information on all aspects of epoxy applications, environments, outcomes, project descriptions and photographs, MSDS and TDS relevant to products used.

Information on the web site is arranged relevant to our services. The web site structure follows an "open-book" format and is not search-engine driven, although a search facility will be added in the near future. This allows users to freely browse, save to disk and print information as they need it. It furthermore allows for extensive linking and cross-linking across web-pages and web-sites, making it an invaluable source of information for our customers.
